Standards and other Rules -  
Main articles: Fire testing,  
Design using structural fire  
standards All hot rolled  
structural steel sections  
have some inherent fire  
resistance and this is a  
function of the size of the  
section, its degree of  
exposure to the fire and the  
load that it carries. Fire  
resistance is usually  
measured in relation to the  
ability of the structural  
section to survive in a  
standard fire test as outlined
