Pte Ltd - The Green Book -

A pump is a device that
moves fluids (liquids or
gases), or sometimes
slurries, by mechanical
action. Pumps can be
classified into three major
groups according to the
method they use to move
the fluid: direct lift,
displacement, and gravity
pumps. Pumps operate by
some mechanism (typically
reciprocating or rotary), and
consume energy to perform
mechanical work moving
the fluid. Pump -
