There are many types of memory bias, including: Fri, 07 Dec 2018 15:17:00 GMT List of cognitive biases - Wikipedia - Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation. Evolution -
